Henry Field's FALL 1949 CATALOG and SEED SENSE Magazine

HENRY FIELD SEED and NURSERY CO., SHENANDOAH, IOWA

Of course you know that certain things **have** to be fall planted. Like tulips. Other things which can be planted in the spring do better fall planted. So I made up for you this special catalog which lists only things that do well when fall planted.

Yes, still have Seed Sense Magazine. It starts on page 7.

6 HARDY PHLOX

I grow many varieties of Phlox but I think these six are the best. Get all six together in this money-saving collection:

for only
\$1.69
postpaid

BN424X—1 each of six for \$1.69, postpaid. Free Gift: 1 Blue Delphinium.

Separately at 35c each; any 3 for 98c, postpaid.

←top row, left to right:

BN59, Leo Schlageter; BN64, Starlight; BN352, Mary Louise. Bottom row: BN75, Purple Sweetheart; BN56, Eva Forester; BN50, B. Compte.

PANSY PLANTS at 75c a Dozen

BN777—Do better and bloom better when fall planted, and if possible in ground enriched with old manure. Mulch with 2" coarse straw or litter after ground freezes. Next spring you will have a variety of friendly-faced, colorful blossoms. Prices: 12 plants for 75c; 36 for \$1.98; 100 for \$4.79, postpaid.

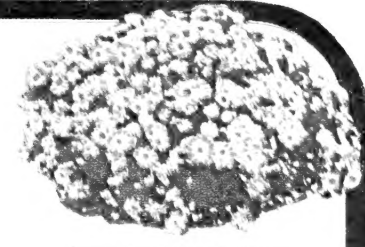

IRIS
Crown Jewel

Smoky rose and gold with veins of rich purple on crimson-rose ground. Beautiful.

The Famous REGAL LILY

Usually 10 or more blooms to a stem. White flowers tinged lightly with lilac outside, yellow inside.

PINK CUSHION 'MUM

"Flower of a Thousand Blooms." Blooms late August until frost. You'll never miss cuttings for bouquets.

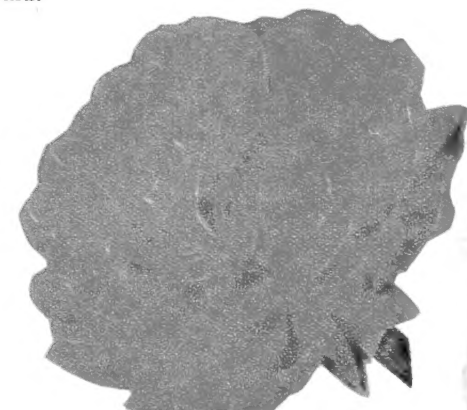

"GREEN THUMB" Collection of Hardy, Easy-to-Grow PERENNIALS

These five flowers are hardy, never-fail sure growers; that's why I call them my "Green Thumb Collection." Just be reasonably careful how you plant them, and you will have a beautiful flower garden next spring with plenty for cutting, too. These plants are worth at least 35c each, and I'll throw in a Hardy Carnation FREE.

All 5 for only \$1.00 BN490X
and the Hardy Carnation free. POSTPAID

Flash PHLOX. Large flowers, brilliant rosy red. One of the best phlox.

Light Blue DELPHINIUM. One of the best and hardiest with spikes 3 to 4 ft. long.

GIANT Double Peony-Flowered TULIPS

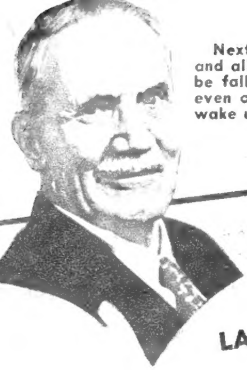

3 for 60c
6 for 98c
12 for \$1.49

Not a peony, not a double tulip, but a peony-flowered tulip, with stems 2 feet long and blooms big as peonies and very fragrant.

BN820—EROS, clear, old rose pink.
BN821—MT. TACOMA, double and pure white.

BN823—LIVINGSTONE, brilliant scarlet.

BN874X—12 bulbs, 4 of each, not labelled, only \$1.45, postpaid.

Next spring you will be mighty glad you planted tulips and all the other Dutch bulbs this fall. And they do have to be fall planted you know. Some bloom before the snow is even off the ground and long before the other flowers wake up.

Henry Field's Genuine

My Famous Rainbow Tulip Collection
NOW 20 Assorted Bulbs for only \$1.00 postpaid
LARGER BULBS—MORE OF THEM—ALL NAMED VARIETIES!

I made a good buy and am passing the saving on to you.
 BN871X—20 for \$1.00 ppd. 2 collections (40 bulbs) for \$1.95 ppd. 100 bulbs for \$4.79 ppd.
 For many years my famous "Rainbow Tulip Collection" has been a big bargain at 15 for \$1.00. Now, I can give you 20 bulbs for only \$1.00.
 And larger bulbs. 10 to 11 centimeter size. Used to be 9 to 10 centimeters (in plain English, that's about 4" around).
 More bulbs, larger bulbs—still only \$1.00.
 Now these are not just any old mixed bulbs swept up off the floor or out of the corners. I buy 20 named varieties of genuine imported Holland-grown Tulips and mix them right here in the seed house. Drop in at bulb time and I'll show you.
 I always figured it takes plenty of tulips to make a good show and some folks just don't have a lot of money to spend for flowers. I think a body loses half the joy of living without flowers so I try to have a real reasonable offer, particularly for the folks who need it—all the rest of you are welcome too.
 Please order early because I usually sell out quick on this collection.
 —Henry Field

"GIANT" RAINBOW COLLECTION
 BN875X—These are the giant sized bulbs, all named varieties that we have mixed ourselves. They will produce amazing large flowers next spring. All colors. 12 for 95c; 25 for \$1.60; 100 for \$6.25; all postpaid.

DARWIN TULIPS

Most Popular of All

Darwins have long been the most popular tulips, probably because of their bright, cheerful colors and because their stems are just about the right length for all purposes (about 2 feet). Named varieties illustrated at right and priced individually.

BN872X—NAMED VARIETY COLLECTION—2 bulbs each of the 12 Darwins listed to the right, 24 bulbs in all. **\$1.89** Postpaid

REMBRANDT TULIPS

My Catalog is one of the very few in which you will find these "Painted Tulips"

BN846 — REMBRANDT TULIPS. We always have been strong for the painted tulips because

we know people like plenty of color and the Rembrandts have it. You customers who know them will have them down on your order already. They grow like Darwins and flower the same except the blossoms are beautifully striped and flamed, or flaked with vivid colors. They are rare and lovely and even though priced a little higher, you will find them well worth while. 6 for 69c; 12 for \$1.15; 25 for \$2.10; 100 for \$7.25, postpaid.

BN845—AMERICAN FLAG. The newest Rembrandt Tulip. Most folks think this was the showiest tulip we had in the display grounds this spring, in fact someone liked it so well that one night they picked all the flowers but one. It is a bright red tulip, striped and flaked with white. A solid bed of this beauty is really something to see. 6 for 72c; 12 for \$1.19; 25 for \$2.25; 100 for \$7.95, postpaid.

EARLY FLOWERING TULIPS

SPECIAL MIXTURE
 BN857—Special named variety mixture of Early Flowering Tulips, at a special price. 6 for 44c; 12 for 79c; 25 for \$1.49; 100 for \$5.60, postpaid.

"Mayflowering Tulips"

These greatly improved tulips contain a great variety of clear bright colors.

Flowers look like pretty pointed caps the Dutch girls wear. Medium height stems.

BN858—CRIMSON BRILLIANT—Very bright and showy. Long stems.

BN859—GENERAL DE WET—Exquisite orange.

BN860—IBIS—Splendid deep rose.

BN861—OLYMPIADE—Golden yellow.

BN862—SUNBURST—Orange-yellow, flame red.

BN863—WHITE HAWK—Pure white.

Prices: 6 for 54c; 12 for 98c; 25 for \$1.55; 100 for \$5.98, postpaid.

NAMED VARIETY COLLECTION
 BN879X—2 each of above 6 varieties. 12 bulbs in all for only 89c, postpaid.

RED EMPEROR

Big, Flaming Red, and Early

BN812—This tulip has everything. It is the earliest to bloom, has the most brilliant color and is the largest in size of all the tulips. If you have grown them, you know. Plant on each side of the front steps or a whole bed of them. You'll want them where everyone can see them. 15c each; 3 for 42c; 6 for 78c; 12 for \$1.45; 25 for \$2.75, postpaid.

BONANZA

—New Peony-flowered Tulip

BN824—Has brilliant red and yellow stripes like Keizerskroon. My Dutch friend, Mr. Res, promises to have it for me to ship this fall. Long stems. Immense double flowers. First come, first served. 25c each; 3 for 65c; 12 for \$2.45, postpaid.

FAMOUS KEIZERSKROON

BN856—Like above but single. One of the earliest. 6 for 72c; 12 for \$1.19; 25 for \$2.15; 100 for \$7.98, postpaid.

BUNCH FLOWERED TULIP

A Tulip That Produces 2 to 5

Blossoms from Every Stem

A WHOLE BOUQUET IN EVERY BULB

Each bulb throws two to five gleaming blossoms from one stem. This is the one that probably neither you or your neighbors have grown before. You'll like it.

BN855—FUSILIER—Brilliant orange red. Each bulb bears a whole cluster of blossoms instead of just one. I used to carry the light pink variety before the war and sure am glad to get the red one instead for you now because it is far more beautiful.

3 for 60c; 6 for 98c; 12 for \$1.49, postpaid.

Genuine Holland-grown bulbs, extra large size. Scarce again this year but I made a good buy so have dropped my price. You can always find good buys at Henry Field's.

BN940—CITY OF HAARLEM. Bright golden yellow.

BN942—LA VICTOIRE. Carmine.

BN944—MARCONI. Deep, rosy pink.

BN943—L'INNOCENCE. Most popular white.

Early Giant CROCUS

Try these Crocus in the rock garden or under tall shrubs. Also easily grown indoors.

Crocus are always a delight because they come up with the melting snow-drifts and are particularly welcome after the long winter months. They are the first flower to bloom. Yes, you can grow them among the shrubbery. Or you can plant them right out in the open in the lawn. Try placing some in a corner, too. Very easy to grow. These are the GIANT flowered kind.

BN901—Purple; BN900—Blue; BN905—Yellow; BN903—Striped; BN904—White; BN902—Mixed. 12 for 49c; 25 for 85c; 50 for \$1.59; 100 for \$2.98, postpaid.

SCILLA CAM- PANULATA →

Ideal for wild garden borders and rock gardens. Sow themselves freely. BN982—Blue; BN984—Pink; BN985—White; BN983—Mixed. 12 for 59c; 25 for \$1.10; 100 for \$3.98, postpaid.

GRAPE HYACINTHS →

(Muscari)

BN981—Make a beautiful border for the tulip bed or walk and are fine planted in solid masses. Heavenly blue spikes with grape-like blooms in deep, rich blue. Live for many, many years and increase in bloom every year. 12 for 59c; 25 for \$1.10; 100 for \$3.98, postpaid.

PLUME HYACINTH →

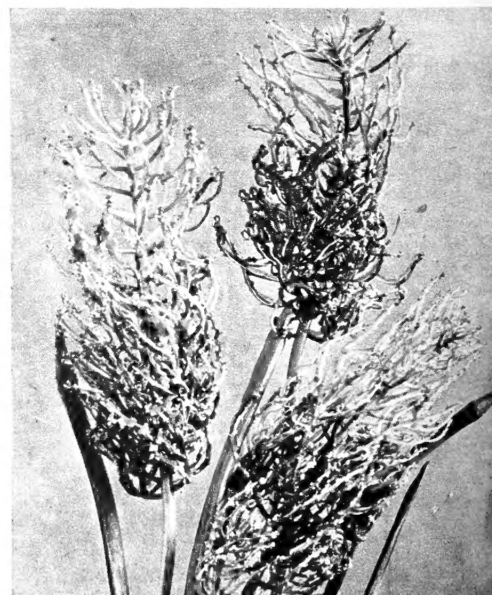

Miniature Tree Hyacinth

BN946—Wanted to list this beauty for a long time but couldn't get it until last year and it still is rather scarce. Flowers are borne in light purple blooms 1½ ft. long. One of the most different and striking flowers I have ever seen. Likes it warm and dry. 15c each; 3 for 40c; 6 for 75c; 12 for \$1.29, postpaid.

AUTUMN FLOWERING CROCUS

(not illustrated)

BN915—(Crocus Zonatus)—Large lavender crocus that blooms in the fall instead of the spring. You can plant the bulbs indoors or out as soon as you get them. Perfectly hardy and live from one year to another. They are very scarce so please limit your order to not more than 6 bulbs so I can supply as many customers as possible. 15c each; 6 for 75c, postpaid.

HOW TO PLANT PAPER WHITE NARCISSUS AND CHINESE SACRED LILY

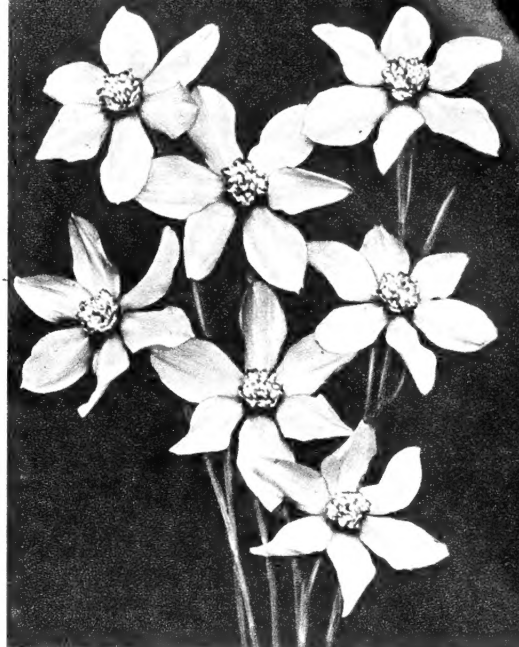

Force indoors in bowls, filled with pebbles and water or in dirt. Let roots form growing out of light. Then bring into light, 3 bulbs to a pot. Pot up a lot extra. They make ideal Christmas gifts.

BN950—CITY OF HAARLEM—yellow

Prices—25c each; 3 for 69c; 12 for \$2.49, postpaid.

DIRECTIONS FOR FORCING BULBS

In the early fall, plant the bulbs in an ordinary clay flower pot with a drainage hole in the bottom. Water well, then bury pot and all outdoors, from 1 to 2 feet deep, and cover it with ashes, soil, leaves or straw. Straw is best. By next February or early March, the bulbs will have put out roots and you can dig up pot and all and bring indoors. They will bloom then right away.

If you use the fancy pots without drainage holes, put in plenty of peat moss and then you can either bury them outdoors or keep them in a cool dark place such as fruit cellar, if you have one, but don't expose them to full house temperature until buds develop.

At Last! A Hardy, June-Blooming EASTER LILY → Have Hardy Free-Flowering ESTATE LILIES IN YOUR OWN BACK YARD

Bloom Year After Year

I've been wanting to offer you a hardy Easter Lily for 50 years. It's something we all want in our gardens. And here it is. A beauty as delicate and wonderful as any grown in a greenhouse. And you can have it right in your own back yard. Plant it this fall and you'll have blooms next June year in and year out. It grows 2½ to 3 ft. tall. Just like what you pay \$3 to \$5 for at the florists, is pure white and has the fragrance of apple blossoms. You can see from the picture at left how free-flowering it is.

You don't find something so unusual every day, but still I'm pricing it right in line with any of my other lilies. This way we can all afford to have it. Plant 6" deep and mulch well with straw or similar substance after ground freezes. BAN11—Price is 49c each; 2 for 89c; 5 for \$1.98, postpaid. And you'll thank me for bringing it to you.

Picture at left shows a whole field of Estate Lilies growing right outdoors. You can grow it in your yard, too.

What of the Future?

To tell you the truth, things really look better to me than they did this time last year. It seems to me we are getting by in pretty fair shape—maybe better than we had any right to expect.

We have been blessed with wonderful crops and crop prospects so far, at least in most parts of the country, and while prices of our crops and other products are down, we all knew all the time that they couldn't be expected to stay up forever.

A Word of Caution

But we must remember that while the Lord has been mighty good to us and blessed us with about seven years of bounteous crops and good prices, there is bound to come a time when we will get smaller returns and lower prices. In other words, "hard times." Maybe not—I hope not, but we would be pretty wise to get ready in advance for whatever comes.

And that brings me back to my old text, of FEED YOURSELF.

I realize that while we were getting \$2.00 for wheat and corn and other crops in proportion, there was a great temptation to just raise plenty of wheat or corn, or potatoes, or whatever your money crop is, take the money and buy the fruit and flowers and garden that you and your family should have.

Things Are Changing

But, keep in mind that you can't keep on doing that forever, and I think you see the beginning of the change right now. It is bound to come, so make your plans now before you get hit too hard, to raise as much as possible of your own food, raise plenty of garden of all kinds, plenty of fruit and plenty of flowers. They are all necessary. One is just about as necessary to our happiness and well being as the other.

You'll Be Happier

And while it is true you can go out and buy them, when you have plenty of money, even then they are not anywhere near as nice as what you grow yourself. And

besides, you miss all of the happiness and contentment that comes with growing your own.

I had a letter today from a lady out in Central Kansas. Said they had been working hard, piling up the money from their wheat crop, and she decided to take some of

that money and invest it in more pleasure and comfort and happiness for themselves, so she started planting flowers, fruits and having a bigger garden, fixing up the home, and how happy she is. I wish you could see the letter she wrote.

Another woman wrote that they had bought one of these war-time houses a few years ago with nothing around it but bare dirt—no grass—no flowers—no fruit and no garden, and how now after only three or four years, they had all kinds of fruit, strawberries, raspberries, plums, cherries, worlds of flowers of every kind, beautiful green lawn, a few nice shade trees—and what a change it had made in their happiness and their outlook on life

It's Fun, Too

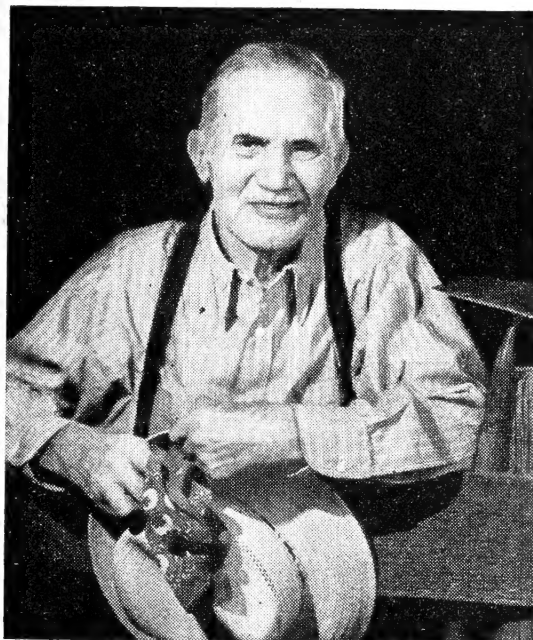

I get literally hundreds of such letters, and I am certainly glad to know that at least some of the people, are taking my advice, living a happy, clean and busy life with plenty of good things to eat—plenty of flowers and fruit for their family.

And they all enjoyed the pleasure of doing it themselves—that's half the fun.

Plant this Fall

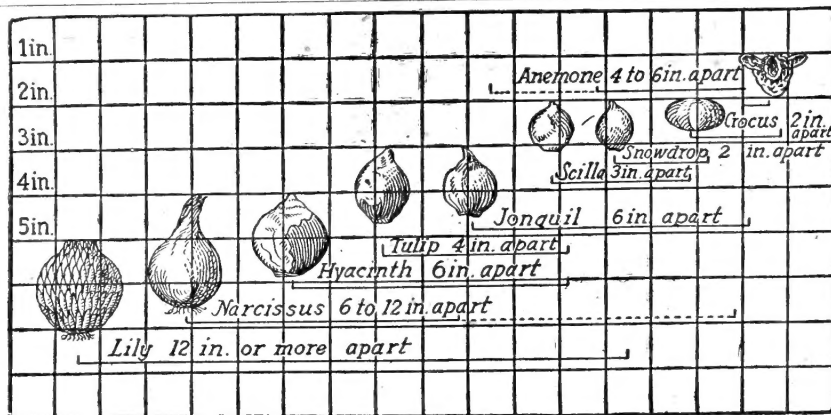

And remember that you can start in right now—this fall. You don't have to wait until spring. Lots of people do not realize that almost all of the hardy shrubs, flowers and fruits do better planted in the fall than in the spring. Everything in this fall catalog (and some things besides) can be planted with splendid results in September and October, and even into November, and will come out fine and dandy in the spring. It will give you quicker and better results than you will get by waiting for spring planting.

—Henry Field.

New Picture Taken this Summer

Yes, this is the way I really look, without any "dolling up," but just as you would catch me most any day in my own garden, busy with just what I am preaching to you. The older I get, the more certain I am that it is the only way to live. H. F.

Plant Bulbs in the Fall for Spring Beauty

Take care in planting fall bulbs to see that they have every chance of success and play their full part in beautifying the garden. The above Bulb Planting Depth Chart will show you the depth and distance apart to plant bulbs. If the ground has been newly spaded, and is quite loose, the depths should be increased an inch or so to allow for setting, and because of the increased effect of frost heaving on newly turned soil. Also, late planted bulbs which have no opportunity to make roots before the soil freezes, may be set a little deeper to protect them from frost action.

It's Ioana Sweet Corn

"Dear Mr. Field: I am sending you a picture of our daughter, Ann, age 15, taken in our corn patch. This corn was grown from your Ioana Sweet Corn seed. Your catalog states that the average length is 8 inches, but many of ours measured 9 1/2 inches."—Mrs. John Collins, Vicksburg, Michigan.

Starting Right

"Dear Mr. Field: Here is a picture of my three youngest daughters, Vada, Violet, and Christine. As you can see, they are ready to plant those Field's garden seeds we have just got out of the mailbox. I can truly say there is none better."—Mrs. Somie J. Dodds, Rt. 1, Caney, Oklahoma.

New Chrysanthemums

Have some new Chrysanthemums I want to tell you about. These listed here are among the newer varieties and have outshone hundreds of others in tests we've run here at the seedhouse. I know you'll like them.

CHRIS COLUMBUS. BN18. Creates a sensation wherever shown. Is a large double white Pom-Pom with pale-lemon center. Fine for cut flowers. Grows 2 1/2 ft. tall. Really a beauty.

ORIENTAL GLORY. BN17. Introduced in 1948. Very brilliant double Oriental red. Flowers 3 in. across with slightly pointed petals. Long stems. Plant nicely shaped.

YELLOW AVALANCHE. BN28. One of the best yellows. Blossoms average 2 1/2 to 3 in. and are brilliant sulphur-yellow. Big, bushy plants that produce hundreds of flowers.

OLIVE LONGLAND. BN41. Probably the finest 'Mum produced by Dr. Krause of the USDA. Its huge, distinctive salmon-orange blooms measure 5 in. across. Folks always pick this as one of the best.

VALIANT. BN33. If you want something gaudy; this is it. A medium-height plant with large, smooth petals of rose-scarlet, shading to a clear yellow center. Will attract much attention.

All of the above varieties are usually listed in the catalog at between 50c and 75c apiece, but I'm going to list them all now at only 49c each, or 3 for \$1.29, postpaid. A collection of one each of the above, BN415X, \$2.19, postpaid.

Mrs. Field's Short Cure for Winter Meat

1 gallon water 1 cup sugar
2 lbs. Tenderquick Pepper to taste

Make brine solution in the above proportions. Pack meat in jar or crock and cover the meat with the brine solution. Leave it in two days to two weeks, depending on size of pieces. When done, take it out, wipe dry and keep in dry, cool place until you eat it. If wanted for summer use, hang it up and smoke it in the usual way or treat it with liquid smoke. This is good for all kinds of meat.

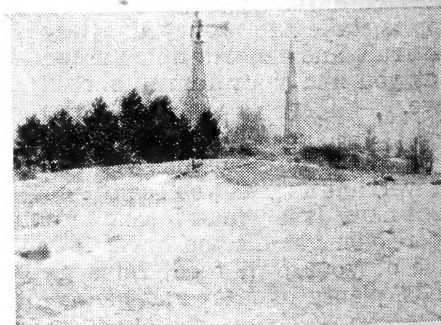

Receive Flowers on Golden Wedding

"Dear Sir: Here is a picture of a large basket of yellow flowers presented to us on our 50th wedding anniversary by the Illinois Gladiolus Society. I bought my first dozen gladiolus bulbs from Henry Field's in about 1925. Have been in the 'glad' business since."—Mrs. J. W. Welchen, LeRoy, Illinois.

Beautiful Canterbury Bells

"Dear Mr. Field: This is one of the big Canterbury Bells grown from your seed. It grew over 3 feet high, and bore 11 separate stems and had hundreds of beautiful bells. Everyone marvelled at it."—Mrs. Ferne Reynolds, Rt. 4, Augusta, Maine.

Snowdrifts 20 Feet Deep

"Dear Sir: Enclosed is a snapshot taken after the blizzard of Jan. 3, 1949. The Bull Pines you see were bought from you in 1933 and were only seedlings. They are now more than 20 feet tall. The drifts in the background were also 20 feet deep."—Frank Vitatko, Dix, Nebraska.

Something to Smile About

"Dear Mr. Field: I am enclosing a picture of two grandchildren, Roger and Jean, and their cousin, with a 59 lb. watermelon grown last summer from your seed. I like everything I get from your seed house."—Mrs. J. D. Hudson, Stratton, Nebraska.

Knows His Onions

Mrs. Roscoe West, a good customer of mine at 3919 E. 12th, Kansas City, Mo., sends this picture of Mr. West with part of their Spanish Onions raised from 300 H.F. plants. Mrs. West says, "They were wonderful keepers and were so sweet and good. Everything I get from your nursery is tops!"

Bug Dust Best

"Dear Mr. Field: We have been regular customers for several years and would like to tell everyone I think your Bug Dust is the best I have ever used—and I've tried lots of kinds."—Mrs. Ettee Meador, Adolphus, Kentucky.
Look on page 11 of my Spring catalog for Bug Dust.—H.F.

A New Rose Is Coming!

For years and years I have been trying to find a certain kind of a rose for you. One that would be so hardy it would grow almost anywhere and would require only a reasonable amount of care and just fair soil and still thrive and grow and put out lots of blooms that would be big and beautiful. Long stems so they would stand up proudly in the garden or would be good cut for indoor bouquets.

What color? Well, so far as I am concerned, it has always been "any color so long as it's red."

Well, I've got it now. Just didn't have enough of them to offer them for sale this fall but they will be in the big Spring catalog, probably right smack on the front cover.

Right now it is being propagated, and is known simply as Plant Patent No. 112. (Which means no one but us will be selling it.) But the boys here at the Seed-house insisted it be called the "Henry Field" and I'm proud to have it named after me.

So watch for the new "Henry Field" rose in my big spring catalog.

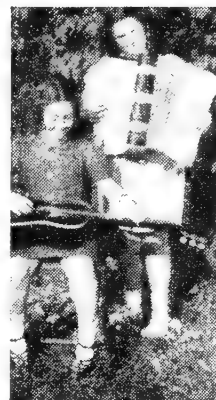

Extra Payment in Nursery

In filling orders to customers we sometimes send postage free items along with others that should be shipped express collect. When this happens the customer has to pay express charges on the whole shipment. Naturally this isn't fair, but to make it right, and rather than put up two separate packages, I always put in a little extra nursery stock. This more than makes up for the additional postage charges. Seems like a good deal to me because the customer actually gets a bargain out of it.

Plant Early Things Early

Be sure to get the early things set out early this fall. Things such as peonies, iris and oriental poppies should all go into the ground during the latter part of August and September. Of course they can be set out later but they will do so much better if planted early. They get a good start this fall and will be big, healthy bloomers next spring.

Young Musicians

"Dear Mr. Field: I have a picture that might interest you. It is of my sister, Earlene, and me with our music. We have this as a sideline, besides helping mother with the garden and chickens. We are 10 and 12 years old."—Verna Schwab, Rt. 2, Assumption, Illinois.

Not One—Not Two—But Triplets!

"Dear Mr. Field: I notice you have been getting several pictures of twins, so I'm sending you a picture of triplets! My two girls and my boy: Wilma Gay, William Hugh, and Wilda May. They are four years old, and it always takes three of everything for them."—Mrs. Carl Okes, Ellison, West Virginia.

This picture was taken last spring in one of the tulip beds behind the seed house. Irving Steurer, our garden seed man, was out getting some color shots so we got him in the picture, too. The tulips, as you can see, were extremely beautiful.

Keep Sending Me Your Letters

I still like to get letters from all you customers. Mine is a friendly business and the better I get to know my customers, the better I can help out with their garden and farm problems.

In the March issue of Seed Sense, I asked that all of you who had been customers for 30 years or more to write me and tell me so. Well, I got literally hundreds of letters from friends who have been with me clear up to 45 years. I think that's quite an achievement and am proud of it, and I thank all of you who wrote me.

So all of you, regardless of whether you have been a customer for 4 months or 40 years, keep on sending me letters. It's a real pleasure to hear from you. My advice is free, if you want it, and I'm always happy to pass it on to others if it will help in any way.

How I Ship to You

There are a few customers each year who write in and want to know when their order is going to come, or to say that part of the shipment is missing. Sometimes, naturally, we make a mistake, but not very often. What usually happens is that the order is split up and shipped according to when it should be planted. We fill orders when our stock is in best condition and at the proper planting time. Garden seeds and non-perishable goods are sent out immediately. Perennials, vegetable plants, house plants, evergreens, pansies, strawberries and bulbs come in separate packages, even when sent out the same day as the rest of your order. Other plants and nursery stock are shipped in separate packages, too, so you may receive several shipments on one order. Heavy seeds are shipped by freight.

So don't worry about your order if it doesn't come all in one package. Look over the papers inside the order. They'll tell you all about it. We always try to send good stock, on time, and at a fair price. That's been my policy for years.

Grow Your Own Strawberries

One thing I like about Strawberries is that anyone can grow them, anywhere. They are not only the best fruit grown, but the only fruit that can be grown anywhere and everywhere—just so you have a little patch of dirt that will grow potatoes or onions or radishes. And how good they are.

A man right here in our office is a fair example. He's a town man on a small town lot, not an expert gardener. He bought 50 plants of our Field's Giant strawberries last year and set them on a little patch 12 ft. square—half a square rod. Gave them good average back-yard care.

This summer, off of that little patch, he picked 72 quarts of the finest berries he ever saw. Far better than he could have bought at 50c a qt. in the stores. He said he was sure that with the small lots that were picked besides he had easily 75 qts. Figure that up. Even at 40c he had \$30.00 worth of berries on half a square rod—about one three hundredth of an acre.

And the best part of it is, that you could do it, too. Right in your own garden. And you can plant them yet this fall. We will be glad to furnish you the plants, as good as he got. Any kind you want. They're all good, but of course some are better.

Get busy and have some really good berries yourself. It's easy.

"Trust in the Lord and do good, so shalt thou live on the land, and verily thou shalt be fed."
(Psalms 37-3)

At Home in the Ozarks

Yes, this is the very latest picture of Mrs. Field and myself, taken just this summer at the front door of our part time farm home down in the Ozarks of Southern Missouri. We are getting a little older, and a little grayer, but still manage to do lots of work, and have wonderful garden and flowers, and to enjoy them all.—H. F.

Send In Your Pictures

Yes, I still want your pictures. And the more I get the better I like it. Seed Sense is your magazine—made for Henry Field customers—and without your pictures there just couldn't be a Seed Sense.

Any pictures—your children, homes, gardens, flowers, fields, crops, livestock, etc., are all welcome. They give me an idea of how well my seeds and stock produce for you. Of course, I sometimes get more than I can use, and some of them are too dim to print well, so I can't really guarantee to use all the pictures sent me.

But don't let that stop you. Look over your pictures and see if you don't have some to send me. I'd like to keep the pictures whether they're used or not, so don't send any that you want yourself. Just send me an extra print—you keep the negative. Remember, I still pay 50c for each picture I use.

Why Fall Planting Is Best

Every year I talk more and more about fall planting. Now, even the experiment stations are recommending it. There are lots of good reasons for it, and I want to give you a few.

- (1) **Plants get six months head start.** The roots of fall planted stock grow all six months and become established.
- (2) **Stand up better.** Because they're established, the plants can take the first hot, dry summer weather better.
- (3) **Bloom first spring.** Fall planted plants are sure to bloom in the spring.
- (4) **People can usually put in a better garden.** Because most people are busier in the spring than in fall, they don't put in near as many plants as they would like. In the fall you can do more and better planting.

As I say, these are only a few reasons for fall planting. The best way to find out what fall planting can do is to try it out yourself and see just how successful it is.

A Problem on Names

If your family is getting more than one catalog I'd sure appreciate knowing about it. We send out a catalog to each name on our list, but sometimes different members of families or different people at the same address order from me and naturally each different name is put down. So, two or more catalogs are sent to the same address, and because of this we sometimes don't have enough copies to go around. Don't get me wrong, though, I want everyone who wants a catalog to have one.

But if you do get two or more catalogs or copies of Seed Sense, please do me and someone else a favor by passing your extra copy on to a neighbor. And then let me know about it on the coupon below. I'll sure appreciate it.

Gorgeous Bed of 'Mums

"Dear Mr. Field: Here is a very good picture of my husband and our gorgeous bed of Cushion 'Mums that we bought from you two years ago. In the background are tall pink Korean 'Mums. Too bad we didn't have color film to show their real beauty."—Mrs. Arnold Nies, Grand Junction, Rt. 4, Colorado.

Little Man with Big Yield

This picture was sent in by Mrs. Verlin Fulton, Perkins, Oklahoma. It is of her 5-year-old son with 6 of the 11 bushels of H.F. Stringless Green Pod Beans he raised from 10 short rows. Looks as though the rows must have been awfully full.

Thrilled with Daffodils

"Field Seed Co.: I ordered your \$1.00 mixture of daffodils last fall. To say I was thrilled when I saw the bulbs would be putting it mildly. Thanks so much and also thanks for the extra gift—it was truly a surprise to me."—Mrs. O. D. Fleming, Trenton, Nebraska.

Giant Hybrid Amaryllis

The prettiest flower you can grow indoors is the Giant Hybrid Amaryllis. Fact is, I think they're just about the most gorgeous bulb plants known. Our hybrids have big, wide-petalled flowers, averaging 4 to 6 inches across and often have 10 or more blooms on a stem. Coloring is beautiful. Ranges from almost white to dark red and has very delicate shadings.

Plant one bulb in a pot of ordinary soil, with the neck and about 1/3 of the bulb protruding. Keep in a cool shaded place until growth starts and water sparingly until several inches high. Then give it plenty of water and keep at a temperature of around 70 degrees. More directions come with each bulb.

No. ABG401. Mixed colors only. Prices: 59c each; 2 for \$1.10, postpaid.

When pruning always cut just above a strong bud, never below.

"My Garden with God"

Our good friend and customer Wilma G. Baumann of St. Charles, Mo., sends us this poem which she wrote:

Did you ever tend a garden
With its rows of flowers gay
And watch them in their beauty
As they blossom thru the day?

Did you ever touch the soil
Of freshly turned up earth
And feel that something, kin to God
That gives to one new birth?

To me, there is no greater joy
For my pal and I
Than to grow a flower garden
With people passing by.

There is something in the toil of day
As one wends his way along
With honest sweat upon his brow
Upon his lips, a song.

There's many a joy in this old world
But none, like planting flowers
It's "Next door to Heaven"
And brings us happy Hours.

"The Lord God Planted a Garden"

The poem which Wilma G. Baumann sent us got me to thinking about the poem by Dorothy Frances Blomfield entitled "The Lord God Planted a Garden." Some years ago, when I was traveling in Florida, I saw this portion of that poem inscribed on the beautiful Bok Tower:

"With the kiss of the sun for pardon,
And the music of birds for mirth,
I can get nearer God in the garden
Than anywhere else on earth."

My Nursery Guarantee

All my stock is guaranteed. If you are not pleased with it in every way when you receive it, return it promptly, at my expense, and it will be replaced or your money refunded, whichever you prefer. If, after you have planted it, and it fails to grow, I think we should both take the blame. I'll take one-half and you and the weather take the other, and I'll replace at half-price anything unsatisfactory through any fault of the stock. Fair enough?

If you wonder how I can make such a guarantee, here are some of the reasons:

- (1) My nursery stock is all state inspected.
- (2) Free from disease.
- (3) Of the heaviest quality.
- (4) True to name.
- (5) First-class, live, growing stock in every way.

Bulbs from Holland to You

That's right. Our Tulip, Hyacinth, and Daffodil bulbs all come directly from Holland. Nothing better than the big, perfect Dutch bulbs, and of course, I send out only the best. Be sure to get your orders in early so you will get the varieties you want.

FREE GIFTS with Your Orders

Have always tried to give full measure to my customers, plus a little extra. We get hundreds of letters every season saying "thanks" for something extra. That's a policy here at Henry Fields. You always get a free gift with your order. And remember, the bigger the order, the bigger the free gift or the more of them.

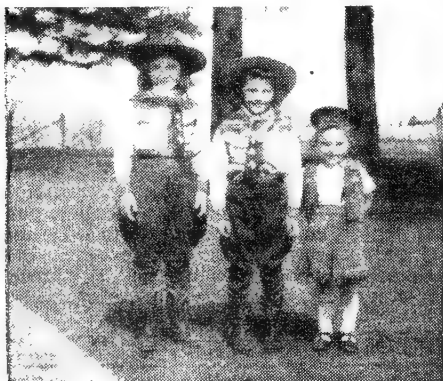

Some troubles are like bee stings: they're only .03124 of an inch deep and the rest is imagination.

Here's a picture taken last May that you may find hard to believe, but it's the honest truth. George Rose, our nursery man, is standing beside a Hybrid Elm tree that's only one year old! It grew from bud to about 13 feet in just one year. That's a little better than average, but all of these Hybrid Elms are the fastest growing trees I've ever seen.

Best Way to Plant Peonies

I've always found that peonies do best in a deep, rich, moderately moist loam. For best results the soil should be dug deeply and worked well with a good fertilizer because peonies are heavy feeders. Set out the plants in early fall. One thing that is extremely important is that the pink eyes be planted between 1½ to 2 inches below the ground—no more and no less. A distance of about 3 feet between the plants is best because it assures ample space for growth.

Rode Ponies to Sell H.F. Seed

Here are the three Kromminga sisters of Monticello, Iowa. Their parents, Mr. and Mrs. Fred L. Kromminga, say that the two oldest girls rode their ponies around selling my Junior Seedsman seed collections and sold them all out in three days.

Sun Bathers

"Dear Mr. Field: I am sending you a picture of my great granddaughters who live in Great Falls, Montana. They are twins and were about 4 mo. old when this picture was taken."—Mrs. Cordia Cutter, Clarinda, Iowa.

Nice "Bossy"

"Dear Henry Field: Am sending a picture of three of my grandchildren, Barbara and Kathleen Roberts, and Bobby Shelton. That's Kathleen with her arm around "Bossy." The Rainbow Glads I got from you were beautiful."—Mrs. J. B. Rhoades, Humphrey, Arkansas.

Married 52 Years!

"Dear Sir: We are sending a picture of Mr. and Mrs. Robert E. Johnson of Holton, Kansas, who will soon celebrate their 52nd wedding anniversary. Would like to see it in Seed Sense. We are old customers and are well satisfied."—Robert and Daisy Johnson, 512 New Jersey Ave., Holton, Kansas.

A Vine with Yellow Flowers

Golden Flowered Hardy Clematis (Clematis Tangutica) is a fine vine growing to the height of about 12 feet and about as wide, and during the summer and early fall it is loaded with bright golden yellow bells. It has beautiful cut-leaf, dark green foliage. And, like the fragrant fall clematis, it is apt to die down to the ground each year, but will start up in the spring, ready for another year of growing and blooming.

This vine is extremely hardy, coming from Korea, and will grow and bloom year after year anywhere in the United States or Canada.

I want to tell you that vines with yellow flowers are scarce, and I am sure you will be pleased with this one. It does not cling to walls as ivy does, but will grow well on a trellis, up strings, or wire, or any other support that you may want to provide for it. AN816. Price: 79c each; 2 for \$1.49, postpaid.

Free Roses for Wedding Pictures

As most of you know, I'll send a free rose bush to anyone sending in a picture of their recent wedding or 50th wedding anniversary. I want every newly married couple to have a rose as a special personal gift from me. Can't tell you what kind I'll send but you can be sure it will be a good one. If you can't send me a picture, send an announcement or something (but I'd much prefer a picture) and I'll send the rose at the proper planting time.

How to Force Bulbs Indoors

Potted bulbs are just about the easiest house plants there are to grow, and they're pretty, too. With a little forethought and almost no effort you can have a glorious bloom of flowers all winter.

Narcissus and hyacinths are usually the best bloomers and the easiest to grow. Paper White Narcissus can be started in water with just enough pebbles or sand to hold the bulbs up. Place in the dark and water often. When they look as if they are ready to bloom, bring the plants out in the light and they will burst into bloom shortly.

Place hyacinth bulbs in flower pots and barely cover with rich dirt. Press the dirt down tight and set in a dark place. Water often. When its roots have developed and it looks ready to bloom, bring it out to the light and it will shoot up and bloom in no time.

S.S. Rose Bargain

I always like to have a real rose bargain tucked away somewhere in Seed Sense for the benefit of you sharp-eyed readers. This way I know you're reading Seed Sense if you can spot these bargains. Roses have always been favorites of mine, and I want all of you to have them so bad that I just can't help making one tremendous offer—one that's even a better bargain than last year. Here it is: 1 TALISMAN, most beautiful red and yellow; 1 PINK and 1 RED RADIANCE, favorites in these colors. All 3 of these roses for only \$1.98, postpaid. AN438X. How's that for a real bargain?

Crocus—Snow Bunting

This is a brand new variety of Crocus that John Res, my Dutch bulb grower, told me about the last time he was in Shenandoah. John has grown Dutch bulbs for me for many years in Holland and knows that I am always interested in buying new things, so he is always on the watch for them.

John was pretty enthusiastic about this Crocus. Says it is enormous—a big white one. Much bigger than anything else in the Crocus line. And puts on a grand show in the spring.

Now I like Crocus anyway because they are just about the first flower to bloom in the spring, and they aren't afraid of early spring snows and sleets but keep coming right on through them and yet they look so fragile that you wouldn't think they could stand up against an ordinary summer zephyr. Now Snow Bunting is something extra special and I would like to have you try it. I am going to plant some around the seedhouse here and you plant some in your garden.

I had to pay a little more for these crocus, but not much, so I will pass them on to you as cheap as I can. Now I couldn't get many so it's first come, first served.

BN906—Price: 60c dozen; 25 for 98c; 50 for \$1.98. Take all you want as long as they last.

Fast-Growing Plants for Quick Results

With all the building and moving going on today, many people are interested in getting plants that will give fast results so as to provide landscaping and "prettying up" in general. I thought it might be of interest if I list a few of those that give about the quickest results.

Roses are ideal ornamentals for most of them bloom the first summer. Shrubs such as Spirea Anthony Waterer, Hydrangea A. G., Hydrangea P. G., Crape Myrtle, Butterfly Bush, and Tamarix also bloom the first year and are particularly pretty. In trees you can't beat our Hybrid Elm. It gives the quickest possible shade of all, with the Chinese Elm second best.

Since these things can be planted this fall, I suggest you get your order in soon. Fall planted stock usually gives the best results, and quickest, too.

The Best Patent Roses

Patent Roses cost a little more, but some of them are so outstandingly beautiful that I think they are worth it. Particularly these:

AN430—ECLIPSE (Patent #172)—I think this has the most beautiful bud and opening flower of any rose I know. Clear yellow with long green stipules laying up along the flower. \$1.35 each; 3 for \$3.40, postpaid.

AN417—MIRANDY (Patent #632)—Huge roses from long pointed buds of deep, rich red. \$1.50 each; 3 for \$4.00, postpaid.

AN474—PEACE (Patent #591)—Generally acknowledged the most beautiful rose in the world. Rich dark green foliage adds to the beauty of its blossom—yellow changing to pale gold to cream with fringes of pink. \$2.00 each; 3 for \$5.00; 12 for \$20.00, postpaid.

AN418—SHOW GIRL (Patent #646)—Finest of the new pinks with superlative bud form. Tall, free-bloomer of vigorous habit. \$1.50 each; 3 for \$4.00, postpaid.

Bug Dust Protects Bulbs

Here's a useful tip and one that may save some of your prize bulbs. Before you set them out this fall, put some Henry Field Bug Dust in a paper sack and then put in a few of your bulbs. Shake the sack up and down gently so that you will get a good covering of Bug Dust on all bulbs. This dusting will protect the bulbs while in the ground from insects, fungi, and even moles because it's both an insecticide and a fungicide.

Early Cherry Picking

"Dear Mr. Field: I am sending a snapshot of our son, Teddy, taken when he was 18 months. He is picking cherries from our Montmorency tree, which was planted just a month before his birth. I certainly enjoy your catalog and Seed Sense."—Mrs. B. J. Ferguson, Nawka, Idaho.

Best Wishes from H.F.

"Dear Sir: Here is a wedding picture of my daughter and her husband, Mr. and Mrs. Alton Goerlitz, of Marienthal, Kansas. She will be so pleased to get a rose bush from you. We like your seeds so much."—Mrs. J. W. Snowbarger, Marienthal, Kansas.

Congratulations. Hope you liked and enjoyed the fine rose we sent.—H.F.

Likes Low Prices, Gifts

"Dear Mr. Field: Just a little note to thank you for my free gifts I received with my orders. If you have the flowers in your catalogs that I want, I will always buy them from you. Your prices are lower than any other catalog I have had."—Miss Alice Shelner, 182 Alton Ave., Dayton, Ohio.

A good way to widen out the straight and narrow path would be for more people to walk on it.

Plant Lawns Early in Fall

The best time of year to plant new lawns or remake thin spots is in early fall, during September. The big advantage in fall sowing is that the grass seeds germinate at a period when most of the weed seeds are dormant, and therefore, the lawn in the spring will be heavy and almost weedless. To get a good, healthy, perfect lawn, just follow these four steps.

(1) Spade ground deeply and thoroughly to about 6 inches.

(2) Work in a good commercial fertilizer, or sheepolizer.

(3) Use only a good lawn seed mixture. I especially recommend our Evergreen Lawn Mix or our Hormone Treated Lawn Mix.

(4) Sow carefully and work in top soil. Give ground a good rolling if you have a roller.

If you follow these four simple steps, I'll wager that you'll have a dandy lawn next year. One that you will really be proud of.

Tips on Mulching.

There's no difference in the way things should be planted in the fall than in the spring, except that in the fall the plants should always be mulched. Mulching prevents the continual freezing and thawing that causes the ground to heave up the plants. Make your mulch of straw and leaves or lawn clippings. Leaves alone should not be used as they are apt to mat and smother the plants.

Shrubs, roses, grapes, etc. should be hilled up with mounds of dirt 8 to 18 inches high, depending on the kind of plant, and then mulched. Other nursery stock should be mulched well with straw and leaves or manure and the manure worked into the ground next spring.

That's a Lot of Corn

The average corn crop in the United States varies from year to year. However, it is safe to put it at 3,000,000,000 bushels. And that's a lot of corn in any language.

If all this corn was placed in a single corn crib 100 feet in diameter the height of the crib to hold it all would be 135 miles high.

44 Yrs. an H.F. Customer

"Dear Mr. Field: You asked to hear from those that had been customers for 30 years or more. I have used them most of the time for 44 yrs., and my parents always used them, too. I hope you live many more years to carry on your seed and nursery business."—Mrs. Effie Pulliam, Box 14, Purdin, Missouri.

Brome Grass with Alfalfa and Ladino

Farmers could make much greater use of brome grass with alfalfa in supplying their livestock with high quality forage at lower cost. This combination is good for hay, silage and pasture and can be grown without extra labor or more acreage.

One acre of good brome grass growing with alfalfa will provide as much hay or pasture as one and one-fourth acres of timothy with alfalfa and as much good pasture as two and one-half acres of fair to good bluegrass.

Smooth brome grass is highly productive, palatable, drought resistant, winter-hardy and long-lived. It reduces soil losses from erosion.

Remember when brome grass is seeded with alfalfa the brome will be productive for at least a year after most of the alfalfa is gone. Select a firm, weed-free seedbed. A corrugated roller or cultipacker will help firm the seedbed and give it the firmness it requires. And plant shallow. Harrowed in lightly to cover, followed by rolling and another cross rolling is best. Plant 3 to 4 pounds of alfalfa and add 12 to 15 pounds of brome. An extra one or two pounds of Ladino is fine if you plan to pasture the field.

Brome always does best fall planted. Anytime from early August to the middle of October. We offer only new crop, weed free seed.

New Ladino Clover

Ladino is a new giant type of White Dutch Clover. Color, shape and leaves are similar. This fast growing perennial legume grows to a height of 12 to 15 inches.

Ladino makes ideal poultry feed. None better. And all kinds of livestock like Ladino in clover-grass mixtures. Extra good for dairy cattle. High protein feed with lots of minerals and vitamins. Ladino helps check erosion in pastures and builds up the soil like other legumes. Doesn't mind wet feet if planted in wet spots or poorly drained soils.

One of the earliest legumes to start growth in the spring. Ladino recovers very rapidly after grazing or mowing. And is less injured by winter heaving than Red Clover and Alfalfa.

Plant alone or in grass mixtures and other legumes. Figure on 1 to 2 lbs. per acre. A little bit goes a long ways. Makes a good combination with alfalfa and brome grass. Also with Timothy and alta fescue. Ladino does well planted in late summer during August and September. Special prices for fall planting only \$2.00 per lb. postpaid. Order as much as you like.

The New Shelby Oat

If you want the last word in a new oat, here it is. The New Shelby. Developed by the Iowa Exp. Station and the U.S.D.A. from a Bond x Anthony Cross. We are the first to offer it this year in a limited quantity. We won't promise how long our supply will last.

We consider this one of the best of the new introductions in a new oat. The Shelby is a white oat, Early to Mid-season maturity, good stiff straw, blight resistant, heavy test weight per bushel and

extra heavy yielder. Absolutely the newest thing in oats. Try the Shelby!

These Shelby oats are true to name, from carefully selected fields, of our own raising with proper isolation and known seed parentage. We triple cleaned them for high purity, germination and freedom from all noxious weeds.

You will be sure to like the new Shelby. Order your supply now for 1950 planting. We won't have enough to list in the spring catalog. While they last, sacked 3 bushels per bag only \$2.50 per bu. in 3 bushel lots; \$2.30 per bu. in 12 bushel lots; and only \$2.25 per bu. in 24 bu. lots or more.

Big Pasture Dividends

An acre of good pasture in Iowa was worth \$91.32 based on the cost of the same nutrients in grain and \$45.66 in terms of hay. Studies were conducted on 25 farms scattered throughout the state by Iowa State College.

Combination legume-grass seedings, where rotation grazing was practiced were the most productive. A new seeding of Red Clover and Timothy was highest. An Alfalfa Brome mixture was a close second.

Low producing, permanent pastures lack nitrogen. This can be corrected by seeding legumes which make nitrogen available to the grasses and at the same time furnish high quality feed.

Think it over. It is worth doing something about.

Sun Cured Kentucky Blue Grass

Hurry! This special offer has the world beat for price and value received. We harvested a good crop of new crop Kentucky Blue Grass and are passing the saving along to you. 100% Genuine Kentucky Blue Grass. Good Quality. Well worth the asking price and more too. Cured right out in the sun and wind helps make this bright, clean, plump seed. And free of noxious weeds. Not light weight seed or a cheap mixture of grasses but honest to goodness blue grass. Plant at the rate of 1 lb. per 150 square feet. Fall planting is always best. Ask for lot Sun Cured on your order. Special fall prices:

55c per lb.; \$2.45 per 5 lbs.; \$4.55 per 10 lbs.; \$10.95 per 25 lbs.; \$39.00 per 100 lbs. All prepaid prices.

New Formula Water-Way Mix

A new mixture formula made up especially for fall planting. Only the best grasses such as Brome, Reed Canary, Alta Fescue, Meadow Fescue, Kentucky Blue Grass, Rye Grass and Timothy are offered in this Water-Way mixture for fall.

Plant anytime using 15 pounds per acre. Ideal mixture for waterways, terraces, contours, ditches, etc. We sold a world of this fine mixture last year. And the formula is even better this fall. Only \$13.50 per bu.; \$29.95 per 100 pounds.

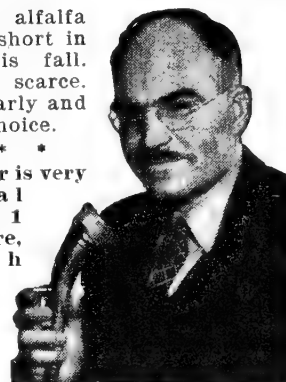

Sold on United Corn

"Dear Mr. Field: I have been wanting to write you and tell how pleased I was with your U-30 United corn. The United blend was caught with a dry spell just when it was beginning to pollenize, but this made no difference to it. It stayed a lush, dark green color, and came through with 65 bu. to the acre. I am sold on United corn."—Aden S. Richardson, Geddes, So. Dakota.

"ALFALFA" JOHN SAYS

I never saw alfalfa seed quite as short in supply as this fall. Seed is very scarce. Please order early and state second choice.

Ladino clover is very popular. Ideal for pastures, 1 to 2 lbs. per acre, along with Brome and Alfalfa. You won't go wrong with Ladino.

"Alfalfa" John Nicolson

Fall is best time to plant Reed Canary. Plant early, the sooner the better. Figure 6 to 8 lbs. per acre on low, wet spots.

We had a good blue grass harvest. Seed is new crop, plump, heavy weight and free of weeds. Plant plenty this fall for a new lawn or reseed bare spots in your old lawn.

Fall is the time to order United Hybrid Corn. Special "Kernel Roasting" treatment protects the seed, promotes fast growth of feeder roots and helps earlier germination and better stands. That means extra yields for you.

Brome grass, like rye, is among the first of the grasses to start growing in the spring. All livestock like Brome grass. Plant Brome now for spring pasture.

We are first to offer the new Shelby oat. And it is a dandy too. See elsewhere in Seedsense. Very limited supply.

What the world needs is more thinkers and less tinkers.

When saving for old age, be sure to lay up a few pleasant thoughts.

New Hardy HYBRID ELM

Grows 8 to 14 Ft. Per Year

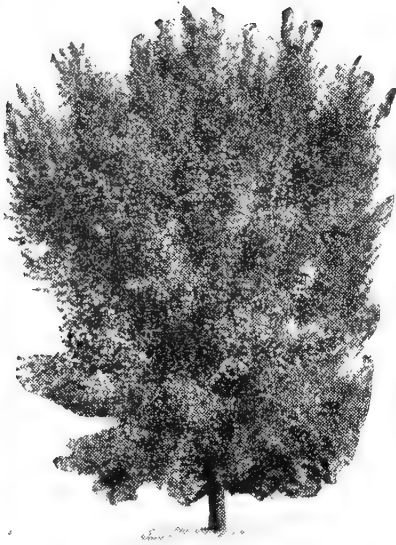

It has this habit from the Chinese Elm, but has far outstripped it. Records show they have grown as much as 14 feet in one year.

Limited Supply—There are no trees available in the United States when our limited supply is exhausted, so I urge you to reserve the trees you want as early as possible.

PLEASE NOTE

Your Hybrid Elm will come to you already trimmed for planting because it is so fast growing that its root system has a hard time keeping up with the top. But when trimmed there is hardly a chance of losing it.

Has All the Good Points of American Elm and Chinese Elm

The Perfect Cross for Shade Trees

—No finer cross could be made for a shade tree than to combine the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm.

Resembles American Elm—Its leaves are very large, dark green. The bark is smooth and a medium grey color. The branches are identical to the American Elm—straight

and strong. It does not break in a high wind.

100% Hardy—Hot weather, cold weather—it's all the same to this new Hybrid. Not even the tips of the branches were hurt in the Armistice Day freeze in 1940 which took so many of our trees here in Shenandoah. Where ordinary varieties killed out, the Hybrid Elm was not hurt the slightest. And hot or dry, growth doesn't stop.

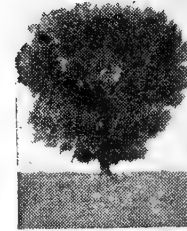

LINDEN

AN701—Basswood Tree. Most formal, compact growing tree. Leaves large, heart-shaped, dark green. Dainty, fragrant flowers. Symmetrical in shape. Fast growing. Very scarce this season. 4 to 5 ft. \$1.29 each; 2 for \$2.29, postpaid.

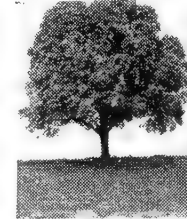

SILVER MAPLE Soft Maple

AN725—A rapid growing ornamental tree growing to immense size, making an excellent shade tree, easy to transplant. Hardy anywhere. 4 to 5 ft., 95c each; 2 for \$1.79, postpaid.

CAROLINA POPLAR

AN705—(Cottonless Cottonwood) Has all the good qualities of the regular Cottonwood, but does not have cotton. A beautiful, fast-growing, hardy tree that makes dense shade. Leaves are big, shiny and glossy. 3 to 4 ft. 35c each; 2 for 60c; 5 for \$1.39. 4 to 5 ft. 45c each; 2 for 79c; 5 for \$1.89, postpaid.

HARD MAPLE Most Permanent of all Trees

AN709—(Sugar Maple). The compact, round-headed dense maple. Leaves are large green turning to brightest red and gold in fall. Nature's most beautiful permanent tree. 4-5 ft. \$1.59 Each; 2 for \$2.98, postpaid.

AMERICAN ELM

AN700—America's most popular shade tree. Tall growing, vase-shaped, neat, adapted everywhere. Unexcelled for shade or street. Long-lived, beautiful for 2 generations or more. 4 to 5 ft. 70c each; 2 for \$1.29; 4 for \$2.39, postpaid.

RED LEAF MAPLE Schwedler's Maple

AN720—Perfect in shape with brilliant foliage both spring and fall. Another live-forever tree. A beautiful shade tree. Plant 35 ft. apart. 4-5 ft. \$1.98 Ea.; 2 for \$3.79, postpaid.

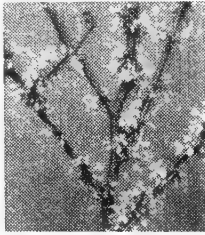

FLOWERING CRABS

AN713—HOPA. Beautiful ornamental tree. Brilliant rose-red flowers in May. Red fleshed and red skinned apples in fall. 3 to 4 ft. 95c ea.; 2 for \$1.79, ppd.

AN750—DOLGO. Beautifully shaped tree. Mass of white blossoms. Brilliant red crabs, fine for jelly. 3 to 4 ft. 98c ea.; 2 for \$1.79, ppd.

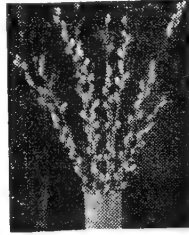

AN748—RED FLESHED. Big red fruit, red leaves, pink flowers. I like this one. 3 to 4 ft. \$1.10 ea.; 2 for \$1.98, ppd.

RED BUD TREE

"Loaded with Bloom"

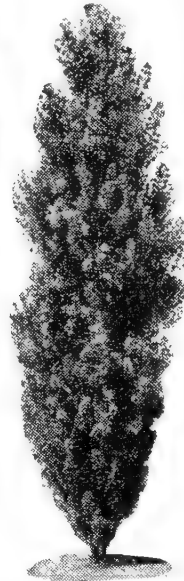

AN722—(Judas Tree) A brilliant sight in the early spring when the leafless branches are packed tight with rosy-red bloom. Leaves are big, heart shaped, dark green. Dwarf ornamental tree. 3 to 4 ft. 98c each; 2 for \$1.79, postpaid.

PUSSY WILLOWS

Grow Them Yourself

AN718—Large, fuzzy and gray all along the stems. They swell to immense size and turn yellow when they bloom. Stands wet ground or dry. Easy to grow. Plant 10 ft. apart. 59c each; 2 for \$1.00, postpaid.

LOMBARDY POPLAR

"The Pillar Tree"

AN-714—This is a tree that makes a tall pillar. Perfect for Sentinel trees of tall border around lot. Fast growing. 3'-4' 29c ea.; 2 for 49c, 5 for 98c, ppd. 4'-5' 39c ea., 2 for 69c, 5 for \$1.48 ppd.

10 Lombardies Special \$1.79

AN-770X—Big 3 to 4 ft. size, pp. FREE: 1 Snow-berry Shrub with each collection.

CHINESE ELM

Genuine Siberian Strain!

My seed originally came from Siberia where only the hardest trees survive. Stand extreme cold or heat, or drought, and do well in poor soil. Thrive anywhere.

Fast Growing— Long Lived

Grow 8 to 10 ft. per year. Give shade or hedge or windbreak quick but live long. Many trees now 200 years old.

STOCK for SOUTHERN Fall Planting

I picked out these items especially for my customers living south of the Iowa-Missouri line. They can plant all these things in the fall. If you live north of that line, you should plant them only in the spring, except the strawberries.

Now, if you people living north of Missouri insist on ordering, I can't help it. But remember, I told you so.

—Henry Field.

FRUIT

Fall Planted Gains 6 Months!

Fall plant any fruit listed here and just leave mound of dirt around base of trees until spring. In very cold country, bury them in a trench, tops and all, and when dug for spring planting they will be in beautifully fresh condition.

PEARS

Everybody should have a few pears, and they're such beautiful trees you can plant them on the lawn.

AN150—GIANT BARTLETT—Fanciest and finest of pears. Big, rich, yellow with pink blush.

AN154—KIEFFER—Winter pear of high quality. Extra good keeper. Large fruit, gold and red color.

AN152—DOUGLAS—Early bearer. Generally year after planting. New. Blight-proof. Large. Yellow. Let it stay on tree until ripe.

AN155—SECKEL SUGAR PEARS—As sweet as its name suggests. Good right off the tree. Small in size but large in quality.

AN156—THE FAMOUS LINCOLN PEAR—The most dependable pear. Large, good flavored. It produces a heavy crop year after year, even in bad years. Ripens about September 15. In big demand on the market. A good commercial variety and one of the best home pears.

AN161—COPE'S SEEDLESS PEAR—Something new, different and better. Produces lots of large, sweet, tender, juicy pears. Fine to eat and the best yet for canning because they have no seeds or cores. Starts bearing when 3 to 4 years old, 2 weeks after Bartlett. Disease resistant and will grow almost anywhere.

RHUBARB

AN926—Famous

Chipman's Canada

Red—This new rhubarb was recently introduced from Canada. It's the best of all rhubarbs. The stalks are large and completely red from bottom to top, even the flesh. Cooking does not take its rich color but makes it more appetizing for pies and sauce. Sweetest of all. Takes less sugar. You can pull the big stalks all spring and summer and almost 'til fall. Seedless. Large No. 1 roots 85c each; 3 for \$2.49, postpaid.

AN918—MY OWN SPECIAL—"TENDERSTALK"

RHUBARB BARGAIN

AN951X—20 of my own Tenderstalk Rhubarb. Prepaid for \$1.59 (Special grade—good transplanters.)

Henry Field's Paradise ASPARAGUS

Best of all. Paradise is more tender, less stringy and more rust proof. We could ask a premium as most seedhouses do not have this yet, but since we have big stocks, we will sell at regular prices, WHILE IT LASTS.

How to Plant—Plant 18 inches apart in rows 2 feet apart and on well enriched soil.

Size to Plant—For quickest returns plant my huge, 3 yr. Jumbo plants. They bear early. For a large planting try the more economical 2 yr. grade.

AN901—2 yr. Ex. Heavy; 100 for \$4.49; 50 for \$2.38; 25 for \$1.29, postpaid.

AN900—Jumbo 3 yr. Plant this giant size and you can begin to eat a little of it the first year. 100 for \$5.25; 50 for \$2.98; 25 for \$1.60, postpaid.

BERRIES

A Lot of Fruit from a Small Space

If you want a lot of fruit for little money, want it quick, and without doing much work—grow berries. If you don't have much room, plant them in corners or along the edge of your lot. And there's nothing better for hand eating, and pies, and jellies, and jams, and breakfast. Go the limit on berries.

SUPER-HARDY BROWNELL ROSES

They Stand 25° Below Zero

These are the new super-hardy hybrid tea roses that absolutely won't kill out even in temperatures that dip 25 below zero. Highly resistant to leaf spot and mildew. Give more blooms with brighter colors than ordinary hybrid tea roses. We guarantee them to live a full year, whether your climate is hot or cold.

Prices: \$1.75 each; 3 for \$5.00; 12 for \$18.00, postpaid.

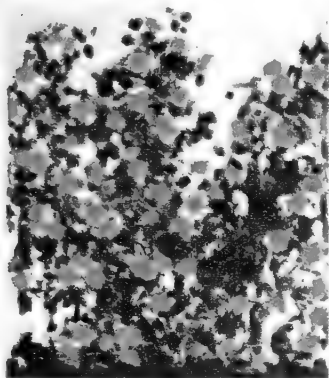

AN909X—SPECIAL COLLECTION OF BROWNELL ROSES— 1 each of Red Duchess, Curly Pink, V for Victory and Lafter—all for only \$6.50, postpaid.

Roses are HARDY, BIG and BEAUTIFUL

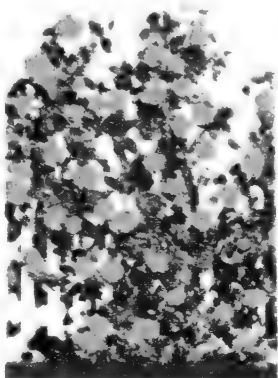

All Giant, Two-Year Plants

Fall planted roses get a running start in the spring because they already are in the ground to take advantage of moisture from melting snow and early cold rains. They get a better root growth before the hot weather hits them, produce healthier plants, more and larger blooms.

To fall plant, just prune tops to balance with roots, cover with a foot-high mound of soil to be removed gently next spring when the buds start swelling.

AN427X—All 6 Roses only \$4.19,

Postpaid.

PINK DAWN

Always Has Most Blooms

AN433—A new, big double glowing pink rose. Compact bushes loaded with blooms the whole summer through. Garden club experts pronounce it the perfect pink.

K. A. VICTORIA

AN410—Blooms continually. Favorite and best. Foliage exceptionally shiny and clean. Super-hardy. Seems to bloom much longer than most hybrid teas. Buds and flowers glowing white.

POINSETTIA

AN423—Probably the most brilliant rose I've ever seen and perfect in its beauty despite its huge size. Very vigorous—in fact, one of the hardest roses I know for standing cold and heat both. Our own introduction and offered only by Henry Field. Propagation rights reserved. Price: \$1.09; 2 for \$1.98, postpaid.

NIGHT

AN425—A great black-red tea rose. Deep blackish-crimson, shaded maroon. Beautiful velvety texture. Really suggests the propriety of its name. Strong grower and very healthy.

TALISMAN

The Famous Easy-to-Grow Greenhouse Style Rose

AN408—Gold, rich scarlet, yellow and orange, all blended in one flower. Long stems. Be sure and include one Talisman in your order this year.

HENRIETTA

My Yellow That Doesn't Fade

AN414—Sold only by Henry Field. A perfect yellow with buds long and pointed, stems long and stiff. Hardy, always in bloom. Named for my granddaughter.

ROSLYN

The Vigorous Yellow

AN431—Buds sunflower yellow to old rose. Flower a beautiful lemon yellow. A good grower and very hardy. Not as subject to fading as some yellow roses. Ideal in hot climate.

MME. JOS. PERRAUD

AN437—Brilliant orange turning to burnished gold. Stays healthy and seems able to keep its shimmering color despite hot sun. Plant lots of these for cut flowers.

Edith Nellie Perkins
Easy Grown—2-Color Rose

AN413—Flowers big and full—outside orange, inside salmon flushed with pure gold. Buds long and pointed. A strong, healthy two-toned rose all your friends will admire.

Big, Beautiful PEONIES

Live and Bloom for Years and Years

IMPORTANT "TIP"

Remember—plant the roots so that the little pink buds are exactly 2" below ground level—no more, no less. This is important. Then mound the ground up over the top 4 to 6 inches for the winter.

BN305—KARL ROSENFELD. Brilliant velvety crimson. Compact grower, stately habit, excellent bloomer. Late. 79c each; 3 for \$2.19, postpaid.

BN306—FRANCES ORTEGAT. Big dark crimson, mid-season peony. 79c each; 3 for \$2.19, postpaid.

BN301—FELIX CROUSSE. Rose type, late midseason. Its flowers are dazzling ruby red. Exceptionally fiery, bright and effective. 79c each; 3 for \$2.19, postpaid.

BN308—FESTIVA MAXIMA. Early snow white with flecks of red on center petals. Immense flowers. 79c each; 3 for \$2.19, postpaid.

BN335—SOLANGE. I think this is the finest white we list. Very late, huge pure white blooms. Easy to grow. 98c each; 3 for \$2.79, postpaid.

BN300—EDULIS SUPERBA. An early, big, deep pink. One of my favorites. 79c each; 3 for \$2.19, postpaid.

BN310—SARAH BERNHARDT. Very double flowers of remarkable size. Apple blossom pink with petals silver tipped. Late. 98c each; 3 for \$2.79, postpaid.

HOW TO GROW—

Set in August, September or October two inches below the surface of the ground, 3 ft. apart each way. Ideal for cemetery planting or border. Need no special care except plant food now and then. See that pink buds on crown of root are not more or less than 2 in. below ground level. Mound dirt over plants the first winter.

BN302—COURONNE d' Or. Clear white with crimson splashes. Late flowering. Unusual waterlily fragrance. This fine peony has been popular for a long time. 79c each; 3 for \$2.19, postpaid.

BN334—WALTER FAXON. A beautiful soft coral pink, shaded lighter at the ends of the petals. Large flowers on a strong growing plant. 98c each; 3 for \$2.79, postpaid.

BN341—GROVER CLEVELAND. Ranks as one of the best peonies produced by Terry, the famous midwest hybridizer. Double dark crimson blooms borne late in the season attract a great deal of attention. 79c each; 3 for \$2.19, postpaid.

BN322—FLORAL TREASURE. Very large full flowers of clear pink, shading lighter at the center. Attractive delicate fragrance. Fine cut flower. 79c each; 3 for \$2.19, postpaid.

PEONIES—3 for \$1.00

A Grand Assortment

Think of it! Peonies for less than 40c each. They're all big, double, choice varieties—every color of the rainbow. They are the extras from the choice varieties when I grow too many and it's your chance to save. A real bargain. Unlabeled.

A NEW GIANT PEONY—THERESE

Peony Experts Rate This as One of the Three Best of ALL Peonies

BN304—THERESE. Was so big and beautiful in the field I had the boys take a picture of it. They laid a blossom beside an ordinary coffee cup and saucer and you can see by the picture at the left what happened. This run-of-the-mill blossom could easily cover four or five coffee cups. Outer petals rose pink with the full fluffy center a pale shell pink. Everyone marvels at the size and beauty of this flower. \$1.25 each; 3 for \$3.49, postpaid.

HYBRID FRENCH LILACS

LARGER BLOOMS—NO SUCKERS
FLOWER FIRST YEAR

AN528—BELLE DE NANCY. Double satiny pink. The best of the pink Hybrid Lilacs. Fragrant. 89c each; 3 for \$2.49, postpaid.

AN560—KATHERINE HAVENMEYER. For my money this is the finest lilac in existence. Huge double lilac-pink flowers, beautifully fragrant. \$1.15 each; 3 for \$2.98, postpaid.

AN532—MME. LEMOINE. A true double. Pure white, 89c each; 3 for \$2.49, postpaid.

AN529—CHARLES JOLY. Rich deep double wine red. Most popular lilac because of its brilliant coloring. 89c each; 3 for \$2.49, postpaid.

AN536—PRES. GREVY. Immense, double porcelain blue flowers. Makes a nice solid bush. 89c each; 3 for \$2.49, postpaid.

Sure-Blooming PERSIAN LILACS

59c

AN534. Blooms first year after planting. Has grace-

about 9 feet tall. Flowers are immense. One of every garden favorite. Extra Select: 49c each; 3 for \$1.29; 5 for \$1.98, postpaid.

Villosa—NEW LATE LILAC

Stretches Lilac Blooming Time

AN535. Grows about 6 ft. tall. Most lilacs bloom at one time and their loveliness is soon over. This new Villosa lilac blooms 10 days later, stretching your lilac season almost half a month. Big clusters dark lilac. Extra Select Plants: 59c each; 3 for \$1.59; 5 for \$2.49, postpaid.

Henry Field's HARDY PERENNIALS

NOW!

**A
Deep
Purple
Bellflower**

BN179—My sister, Helen Field Fischer, has grown this one for years and my first plants came from her. It is called Campanula Glomerata Superba—a terrible name for such a pretty plant. Makes clump about 18" across and high and in May stems shoot up bearing clusters of bell-shaped flowers. Lives for years. Hardy as a rock. 45c each; 3 for \$1.19, postpaid.

See two following pages also for more Hardy Perennials

You will find a lot of good Perennials here crowded into a small space—a few new ones, but mostly the beautiful old reliable tried-and-true ones. None of them is expensive, and in case you don't know too much about Perennials, I picked some good things for you and made up the four bargain collections below. That \$2.00 collection below, BN446X, is the best buy in this catalog.
